DETAILED ACTION

1. Claims 1-21 are pending for examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15 drawn to an *unauthorized use of a software product on a host computer*, associated with a *program ID* classified in class 380, subclass 202.
 - II. Claims 16-21 drawn to a *distributing credits through a licensing system to a host computer system*, associated with the said *licensing system* processing said credits classified in class 705, subclass 53.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention Group I has separate utility such as an *unauthorized use of a software product on a host computer*, associated with a *program ID* which *can be used with distributing credits through a licensing system to a host computer system*, associated with the said *licensing system* processing said credits.

Invention Group II has separate utility such as *distributing credits through a licensing system to a host computer system*, associated with the said *licensing system* processing said

Art Unit: 2136

credits which *can be used with* an *unauthorized use of a software product on a host computer*, associated with a *program ID*. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
